SUCCESSFUL GROWING OF CUCUMBERS AT SCOTT EXPERIMENTAL FARM

(Experimental Farms Note)

The cucumbers grown at the Scott Experimental Station during the season of 1925 attracted considerable attention from visitors. The seed was planted in the garden about the first week in June in rows 4 feet apart in the row. From eight of these rows 30 feet long approximately 275 pounds of cucumbers were harvested. Trials of previous years have indicated outside planting of cucumbers to be more successful than planting in the hot bed and transferring to the garden later.

About 225 pounds of pumpkins largest one weighing 60 pounds. There was 325 pounds of vegetable marrow ground, the largest weighing 30 pounds, 150 pounds of citron and 320 pounds of squash. A number of varieties of all the above are compared each season.

Details re the leading varieties and the care and management of the crops are best obtained by growing season but may be obtained by writing to the Superintendent.

UNION OIL CO.

STARTING WORK ON OIL REFINERY

That an Edmonton distributing and storage plant for the Union Oil Company of Canada will be built as soon as the weather breaks in 1926, is stated in a letter just received from H. T. Langford of Calgary, special agent of the big company. It is also indicated that the plans provide for the completion of plants at other points in the Edmonton district.

This new plant has been estimated to involve an outlay of fully \$50,000 and will be built on a site that the company has secured on the south side, in the city.

Regret that the company was not in a position to start construction this year is expressed by Mr. Langford on behalf of the management, but it was stated that the delay was due to the inability of the new Union refinery at Vancouver to supply the demand. This new plant is now in course of construction and will be able to take care of all requirements early next spring.

—Wainwright Star.

W. L. A. NOTES

The regular meeting of the Westminster Ladies Auxiliary will be held at the home of Mrs. C. C. McKeechie Thursday Nov. 12th at 3 p.m.

TO THOSE THAT HAVE MIXED GRAINS

We will rent a grain cleaner which you can take to your place. This machine will separate any mixture of grains. Chauvin Mill.

SHERLOCK LADIES CLUB

The Sale of Work which the Ladies of the above club arranged for Friday evening last was favoured in all respects. The night had been anxiously looked forward to by all those who were anxious to see a substantial reduction of the Organ debt. Quite early in the evening it was evident that there was going to be a good attendance. The school was very tastefully decorated; the stall (which was full of good things) and the fish pond were specially attractive. Still the good folks came from far and near and when the sale was formally declared open the school was crowded to its capacity. The sale of the things made by the ladies were all disposed of at good prices (but not more than they were worth), and the fish pond was quickly emptied of many kinds of "fish" for young and old. The dancing which was going on was being keenly enjoyed, and although rather cramped for space (owing to so many being present) the couples were making the best of it. The music in the hands of the Matheson boys was all that could be desired while Mr. George Masson in his usual genial and capable manner acted as floor manager. When Supper came it was thought that the ladies would have a hard time to cater for the large gathering but the ladies rose nobly to the occasion and despite the fact that it took quite a long time to get all served, everybody had sufficient and plenty. After supper dancing took precedence and during the evening there were three competitive dances, and prizes were given to the fortunate winners. The best of things must come to a close sometimes, and it was nearly 4 a.m. when the "Home Sweet Home" struck up. One cannot refrain from a few words of praise to those who had all the many arrangements in hand. To the ladies who spent many hours on the making of the various articles of the stall. To those who in any way contributed towards the enjoyment and success of the evening itself, and also to those many people who came from a distance in order to make the financial end a success. They all succeeded, and one may confidently whisper that over \$100.00 was cleared as a result of their united efforts.

The sale of work in Sherlock Lake School last Friday was certainly a great success and reflects great credit upon the members of the Ladies Club.

NEWS FROM NORTH EAST

The election is over, and as a result we have a change of government. Now we must "Wait and see" what happens.

The sale of work in Sherlock Lake School last Friday was certainly a great success and reflects great credit upon the members of the Ladies Club.

Next Wednesday is Armistice, and do not forget the poppies that will be offered for sale by the G.W.V.A. and friends. Buy (Continued on page eight)

ANNUAL MEETING BATTLE RIVER LUTHERAN CHURCH

The Annual meeting of Battle River, Zion and Normanna congregations was held in Battle River church from October 23rd to 25th.

The speakers were Rev. H. T. Egedahl, O. J. Sathre and Rev. Bo from Viking.

Mr. O. P. Holte spoke at the opening of the meeting on Friday at 11.00 a.m. In the afternoon the meeting was addressed by Rev. Egedahl his topic being taken from Luke 16: 19-31. Addresses were given by several other speakers. In the evening services were held in Battle River and Zion Churches.

The business meeting as held Saturday forenoon and Mr. Holte elected as field Secretary for the ensuing year.

Sunday morning at 11 o'clock communion service was held by Rev. Sathre. The offering amounted to \$74.85. There was a large attendance at these meetings.

LUTHERAN CHURCH SUNDAY SERVICES

SUNDAY NOVEMBER 8, 1925
Battle River 11.00 a.m.
Service at Haugen's 3.00 p.m.
Confirmation class will be held every Saturday.

SOCIAL EVENING AT McCAFFERTY

A very pleasant evening was spent in McCafferty School House on the evening of October 24th. The entertainment consisted of general neighborly conversation, cards, boxing and an account by Mr. Herbert Spencer of his trip in a cattle boat and his summer in England. The U.F.W.A. served lunch after which a collection was taken which resulted in the very satisfactory amount of \$20.70 for the Battle River Political Ass'n.

The McCafferty U.F.A. and U.P.W.A. can rest point with pride to any fine buildings they have or any possessions of note, but they have the satisfaction of feeling they have been willing helpers in many a worthy cause.

NOTICE

To all returned men and ex-service men in the district. You are earnestly requested to take part in the Armistice Day Memorial Service to be held in the I.O.O.F. Hall Sunday at 2.30 p.m. Parade at the G.W.V.A. Hall 1.30

ARMISTICE DAY MEMORIAL SERVICE

NOTICE

Service to be held in the I.O.O.F. Hall, Chauvin on Sunday November 8th at 2.30 p.m. Christen Meloe of Edmonton will conduct the service assisted by Rev. McSween. Everybody Welcome.

MERTON COUNCIL MEETING MINUTES

Minutes of the Council meeting of Merton M.D. No. 451 held in Winona School House on Saturday October 17th; at 12 noon; when there were present Reeve S. Byers, A. E. Cameron, nad D. L. Bennett; Clr. F. W. Heard being absent.

The minutes of the previous meeting were read and approved. In connection with the care of Mr. D. Campbell in the hospital; Secretary was instructed to write for particulars as to the possibility of caring for his case at a Home for the Indigent; and to place Mr. Campbell in a home, if conditions and terms were satisfactory.

With regard to the enforce law; Secretary was instructed to issue a warning to all Ratepayers; that after December 31; all stock found running at large within the limits of the District would be impounded.

Secretary was instructed to investigate the case of help being given under The Mother's Allowance Act; with a view to obtaining a reduction in the allowance.

Various Municipal correspondence was dealt with by the Council.

The question of sending delegates to attend the Municipal convention, to be held in Edmonton next month; was held over till the next meeting.

The Secretary reported on his visit to the Attorney General's dept. in connection with the sale of the West half of 12-46-2-4th under the Tax Recovery Act. It was moved and carried that the Dept. be notified that in an effort to effect an amicable settlement; Council are prepared to refund the sum of \$456.71; this being the amount received from the sale, over and above Taxes.

Secretary reported to Council that the building of the Municipal office had been completed with the exception of painting the same; the cost of the office being \$250.00; Clr. Bennett moved the payment of this account, when the necessary adjustments on returned material were made.

Accounts and Road Sheets amounting to \$476.88 were submitted on motion of Clr. Bennett.

It was decided to hold the next Council meeting at the office of the Municipal District on Saturday November 14th; and Council then adjourned.

CHAUVIN COMMAND G.W.V.A.

All veterans are specially requested to be present at the next meeting of this branch to be held in the club rooms Main Street on Saturday, November 14 at 8 p.m. sharp; as business of importance will be discussed including nomination of officers for the coming year; and program of activities for the coming winter.

F. J. LaPlante, President
C. J. Smith, Secretary S. D.

"SQUIBS' HONEYMOON"

The wedding seen in "Squibs' Honeymoon" is probably the most impressive of any ever seen on the screen. It is a scene of sympathy and beauty, original in treatment and touched with the fine point of poetical insight in every woman. But it was not achieved so simply as it appears on the screen.

Nine times married in one day, Squibs m yahave enjoyed it; but I doubt very much whether most brides would; said Miss Balfour when interviewed.

An amusing tale of a young bride's misadventures in France, with an All Star Cast of British players. At Chauvin next Monday and Edgerton next Tuesday.

PARADES

"C" Squadron 19th Alberta Dragoons Church Parade on Sunday November 8th commemorating Armistice Day. Stores will be open for issue of clothing, etc from 1 to 2 p.m. Fall in 215 outside Armouries. Every member requested to attend this parade. J. A. MacKenzie, Maj. "C" Squadron Leader.

RIBSTONE J. RED CROSS HALLOWEEN PARTY SATURDAY EVENING

A Halloween party was very successfully carried off by the combined efforts of the three schools of Ribstone.

The fore part of the evening's performance took the form of a concert. The singing was managed almost entirely by the New Ribstone school. It was ably led by Gladys Mills.

The "Bluebeard Pantomime" by the Cresthill pupils was well acted as was also the short Play "A Cruel Hoax" by the Old Ribstone school. The chairman's address on the Work of the Junior Red Cross showed clearly its benefits and our aims for it.

Monologues which deserve worthy mention are those by Master Earnest Clasper, Miss Bell Dallyn, Irene Brewer, and Harold Burton.

After the concert lunch was served by the parents of the children.

Three witches told weird fortunes. There were three contests, apple ducking, pinning the tail on the black cat, a lucky scramble for the kiddies and several charades.

The proceeds of the evening was about \$51.55 with expenses of about \$3.50.

CARD OF THANKS

We here take an opportunity of with decorations, stage setting thanking, all those who helped lunch, and clearing away.

Mrs. Pounds work at the organ was much appreciated.

Signed Hazel Walrath, New Ribstone S. D.

Olga Banks, Cresthill S. D.
Victor Winters Old Ribstone D.

The United States contains. A fossil tree, 70 feet long, and old, has been unearthed in Assam about 15,000,000 of foreign birth, estimated to be 1,000,000 years mining area of Bengal, India.

Breaking New Ground in the Rockies

(1) Surveying the Glacier from a neighboring peak. (2) Paul McIntyre, 19-year-old son of J. B. McIntyre, of Providence R. I., with the Swiss guide Chris Haessler, entering the newly discovered ice cave on the Illcillewaet Glacier at Glacier B.C. (3) The summit of the Illcillewaet Glacier.

The fastnesses of the Rockies about in virgin territory never touched by the foot of man and one of the latest of these to be traversed is the Illcillewaet Glacier where a new ice cave has been discovered this year of which the photo above gives a good idea. It was found by Chris Haessler, one of the Swiss guides stationed at Glacier B.C., and the ascent to it was made in September by 19-year-old Paul McIntyre, an annual visitor with his family to Glacier, the guide and W. J. Oliver of Calgary. Mr. Oliver describes the adventure as follows:—

"It was a glorious day, Mount Sir Donald was crowned with a circular cloud like a halo; the vegetation was filled with a delightful fragrance. After walking through massive timber we gradually emerged into jackpine, brush, and on to the tongue of the Glacier. Here were the headwaters of the Illcillewaet River winding its way down the steep valley from this huge Glacier. Our progress from the point was somewhat slower, our good trail had been left behind; the first 1,500 feet was over rock and moraine, crossing trestles and miniature waterfalls from the ice above. As soon as we reached the ice we adjusted the crampons to our feet, these receiving new edge from the glaciers to a

small bobsleigh each having 12 spikes distributed evenly over the surface and about 1½ inches long.

"Travelling along these huge crevasses is very thrilling, at times there was only a walking surface of 2 feet and on either side of this narrow ledge of ice were drops from 1,200 feet. Chris Haessler the Swiss Guide led the way and roped to him was Paul McIntyre and self. Our course over the ice field was continually brought to a halt on account of a huge gulch in the ice being too wide to cross, we would then have to travel either up or down until our guide could locate a place narrow enough to cross. Finally we located the ice cave after travelling along the base of one of these huge crevasses, it proved to be 10 feet high and 20 feet long, the sides were worn like the sands after an ebbing tide and with the strong sunlight that was coming in at its entrance these pieces of jutting ice scintillated like huge diamonds. Right in the centre across the valley, framed by this wonderful old cave stood the Swiss Peaks and Mt. Hermit.

Leaving here we travelled on to the ice series near the top of the Glacier and it made the unaccustomed stand in awe to see the Swiss Guide and Paul McIntyre run around these ice columns and up and down the sides of their steep ice bridge like children at play.

COMPASS POINTS IN DIFFERENT DIRECTIONS

Compass Inventor Unknown.

The invention of the compass is lost in the dawn of history. It is first found mentioned in a quaint Chinese legend which relates that the Emperor Ho-ang-ti in 2634 B.C. led forth his army and attacked the rebel Kiang on the plains of Tehoulou. But Kiang, getting the worst of the conflict, called the wizards, magicians and sorcerers to his aid who raised a great fog to hide Kiang and his army. Then the Emperor, not to be outdone, in his turn used the greater magic of the compass, which led his army through the great fog so that he was able to overcome Kiang and capture him.

Led the Way to New World

The compass appears to have been brought to Europe in the twelfth century, most probably by the Arabians, as it is known that Arabian and Chinese traders met in the Persian gulf and on account of its very great practical value as a guide in all weather rapidly came into general use and enabled Christopher Columbus to sail straight west from Spain, by day and by night, through fair and stormy weather to the discovery of the New World.

Does Not Point North

But contrary to story book report, the compass does not point north but more or less to the east or west at different places. Scientists state that this is because the magnetic poles of the earth are not situated at the geographical poles as shown on our maps of the world; that in fact the north magnetic pole is near Boothia Felix on the Arctic coast of Canada, and the south magnetic pole in South Victoria Land near New Zealand.

Surveys Necessary

In order that the compass may be used with reliance, therefore, the different countries of the world carry out magnetic surveys to measure its direction, and picture the information on magnetic charts for compass users.

First Work in Canada

Compass information is particularly valuable in such a large new country as Canada, and it is interesting to note that Champlain measured its direction at Halifax about 1604, John Davis in Davis Strait 1585 and Capt. Baffin in Baffin Land 1616. Capt. Middleton at Churchill and York Factory 1725; while Capt. Cook in 1778 and Capt. Vancouver in 1792 measured it along the Pacific coast. Later Sir John Franklin 1819-26 and Sir John Lefroy 1843-46 made some measurements but comparatively little was done in Canada before 1880.

Since 1880, however, the Topographical Survey Department of the Interior, has carried on a most extensive magnetic survey in this country in conjunction with its other work, at practically no expense, because the compass direction can be measured in a few minutes when the survey parties are already on the ground; until it now possesses more than 20,000 measurements, and regularly publishes magnetic maps which picture all this information for compass users.

Leads Way Today

In spite of the fact that the compass has been known for so long, it is today more widely employed than ever before it is the sure-fire pathfinder, the cloud by day and the pillar of fire by night to the sailor afloat on the heaving main; the airman above the hiding clouds; the miner far underground in the deepest shaft; and explorers, surveyors, hunters, trappers, prospectors, pioneers, and travellers penetrating the trackless forest, the jumbled mountains, and Virgin Wilderness, and the Far North.

Riddles Yet Unsolved

But the compass still has hidden secrets. Elusive earth currents and stubborn static still act the part of highwaymen and hold up our friends the telegraph and wireless and radio. We know these highwaymen are in the nature of first cousins to the dancing northern lights and magnetic storms that torture the compass, and black cyclonic sunspots that try to rob us of our light and heat, but all these things are still seen through a glass, darkly, and scientists believe they never probably can be forced to take the stand and lay bare their inmost secrets until the direction of pointing of the compass has been properly mapped all over the world.

TO DEVELOP

GOLD DISCOVERY

Four Hydroplanes, carrying 15 men and three tons of provisions left Minaki, on the line of the Canadian National Railways just east of Winnipeg, last week for Red Lake, 85 miles north, to begin work on the new gold find here in the Patricia district, according to Findlay McCallum, who just returned from a trip into that country. Another crew is setting out for Red Lake by the land and water route, taking further supplies. McCallum states that between 30 and 40 Halleybury, Cobalt and Timmins prospectors have been working over this mineral field and he has himself a number of claims in the district on which there are good showings of silver-lead ores. The new discoveries, upon which work is soon to begin, are at the southwest end of the lake and show a large sulphide vein in which free gold has been found over a distance of 700 feet. Representatives of some of the big Ontario mining companies are on the ground and indications are that there will be many prospects in the Red Lake district next year.

IT PAYS TO ADVERTISE

**THE RED CROSS
IN THE HOME**

Perhaps there is no greater proof of the value of the influence of Red Cross in the Home, than the remarks of a mother whose child had recently joined the school branch. Her mother said: "It has entirely changed my little girl. She was a constant anxiety to me in the smaller matters of her personal hygiene. The care of hair, nails, teeth, etc., had been the subject of much nagging before I could get her to attend to them. Nowadays, she takes the greatest pride in herself, telling me that a 'Red Cross child must be always spick and span and shiny. At her school they have musical drill and songs with actions which refer to the morning health habits. This instills those duties firmly into the children's minds, and in the case of my little girl, they have truly worked wonders. Then, Johnnie, the young master of the house, who is only five and not yet at school, has made the acquaintance of the health fairies over the air, and is, way, all the directions these fairy folk give under the guise of fairy tales. I assure you it is a great help to have a child ready to go to bed of his own accord at an early hour, because the Health Fairy has told him to do so. In our house, we are glad to have the influence of the Red Cross in the home; it has meant for our children, better health habits in their daily lives."

One of the chief reasons of a Peace time Red Cross is the promotion of health publicly and privately by means of popularly written health literature, available, free for distribution by the Alberta Division, by lectures on the Radio, by attractively featured health lessons in school branches. This program results in a better and higher standard of health in the home, and a finer quality of life and citizenship.

You are earnestly asked to support the Red Cross by contributing to the Annual Appeal during the coming month. For full information, please write to Alberta Division Red Cross, Calgary.

An almanac, printed in 1643, was the first book in Norway.

ear a Poppy on Armistice Day

SUCCESSFUL HUNTING TRIP

Ten grizzly bears and a dozen grizzlies measuring over 11 feet in length, were among the trophies taken home recently by a party of United States hunters, headed by R. L. Riley, of Williamsport, Pa. The party spent 40 days in the mountain territory of British Columbia along the lines of the Canadian National Railways.

ADONTS FOR HUNTSMEN

Don't forget that penalties for infractions of the Game Act range from \$10.00 to \$1000.00.

Don't carry a loaded gun in a vehicle

Don't leave your license a home.

Don't point your gun loader or otherwise at anything you do not wish to kill.

Don't shoot without a license.

More Trees for the Prairies

It has been said that up to the present the prairie farmer has lived in a house rather than a home. Working on the theory that in home-building, the eye must be fed as well as the stomach, the Canadian Forestry Association some six years ago instituted a campaign to beautify prairie farms by tree-planting.

Operating what was called a tree-planting car throughout the prairie provinces was one of the methods adopted by the Association to make actual the embellishment of the farms. The car has covered over 7,000 miles of prairie railway this season, most of this on C.P.R. Lines, its occupants have given audiences to over 38,500 persons and held 438 public meetings in 146 communities.

**IN HONOR OF A
GREAT EVENT**

Birthdays are always important occasions, especially if one is very young or old. Before long The Youth's Companion will be a hundred years old, and the event is going to be made a memorable one for The Companion's many friends. So, although the date is not until April 16, 1927, preparations will begin with 1926.

In honor of its birthday The Companion will come to you next year at the new low price of \$2. It will be dressed in its party clothes, with new cover designs, enlarged illustrations, new brilliantly clear type, and over 200 pages more than last year. It will contain 9 book-length serial stories, tales of adventure on land and sea, the new "Make-It and Do-It" Pages, radio, games, books and puzzles, interesting special articles, and the ever-delightful Children's Page. Don't miss this great year of The Youth's Companion; subscribe now and receive:

1. The Youth's Companion—52 issues in 1926, and

2. The remaining issues for 1925

2. Or include McCall's Magazine, the monthly authority on fashions. Both publications, only \$2.50.

THE YOUTH'S COMPANION

S. N. Dent, Boston Mass.

Subscriptions received at this office.

Seedlings, cuttings and transplants have been distributed in the car's wake as a result of these activities, and an official of the Association was able to state that in all the car's travels, a single farmer who had migrated from a well-treed farm was yet to be encountered. In his mind the secret of stabilized population on the prairies is closely identified with tree-planting.

The entire enterprise is maintained as a non-government and non-commercial undertaking, financial support coming chiefly from agricultural societies, the railway corporations, grain companies and individuals like Mr. E. W. Beatty, Chairman and President of the Canadian Pacific Railway, Sir Joseph Flavelle and others.

"Your wife looks stunning to-night. Her gown is a poem."
"What do you mean, poem?" replied the struggling author.
"That gown is two poems and a short story."

B. P. ANNUAL REPORT
PROVES WAINWRIGHT OIL
COMMERCIAL QUANTITY

According to official statement made in annual report by the president of the British Petroleum recently issued three of their production of seven-hundred barrels. (With the last well drilled producing 20.2 Baume oil from sands 40 feet thick at a depth of 200 feet deeper than other wells drilled), makes future drilling most encouraging indeed.

The official statement made that No. 4 well had a flush production of 400 bbls daily is also conclusive proof of commercial production. We congratulate the president upon his annual report and for the statement that it only requires the drilling of additional wells in Wainwright field to make Alberta as prosperous as the development of oil has made the State of Texas.

The above, coming as it does from the president of an oil company which has expended such a vast sum of money in drilling dur-

ing the past few years, should certainly be quite conclusive, and be sufficient inducement for other companies now in the field holding acreage to prepare for an early start in the spring.

Drilling for commercial oil in shallow field has the element of chance practically eliminated, and we are pleased to know that the big oil companies of the States who have had representatives here quite recently, are not only anxious, but willing to acquire considerable acreage with a guarantee of immediate development. It would now appear as if our Wainwright oil field was making good, and that the big drilling boom will be away to an early start in the spring.

Other Companies now actively engaged in the field, and who have excellent holdings, are the Anglo-Alberta Oil Limited, the Wainwright Dome Oil Company, Limited and the Interior Oil Company Limited.

Another company which is now being organized is the "Pabyan Oil Co." which has secured some

valuable leases in the west end of the local field. This company is headed by Mr. Roy Williams, who was influential in bringing in the Maple Leaf No. 1. Well and with him are associated a number of prominent Vancouver business men. This company is arranging to bring in a rotary rig at the earliest possible moment so as to be in a position to spend in as soon as weather will permit in the spring.

Through a communication from Mr. G. Harman, who is the land commissioner for the Hudsons Bay Co., and who was here a couple of weeks ago looking over that company's extensive oil lease at this point, it is learned that some 1,600 acres of their holdings have been leased to a company which is being formed in Edmonton.

This land is close to the B.P. wells, and is being taken on a ten-year lease with an undertaking to commence drilling early in the new year. Messrs T. Sugars, H. Morris and E. Bishop of the city are prominent in the new venture

and as these gentlemen are all versed in oilfield undertaking we expect to hear shortly.

—Wainwright Star

Your favorite magazine can be ordered to come direct to you for one or two years. No matter what Magazine or where it is printed. Costs you the same as you would have to send the Company yourself and saves you the trouble

McKechnie's Drug and Stationery Store.

"The collection this morning," observed the vicar, "will be taken on behalf of the arch-fund, and not, as erroneously printed in the service papers, on behalf of the arch-fund."

LOCAL OPTION VOTES

A total of twelve local option votes have now been held in the province, and of the twelve, four have been "wet" and balance of eight dry.

The largest "wet" vote was recorded in Sturgeon, where the vote was 401 for to 487 against. The other localities to vote were Islay, by one vote, Langdon and Shepard, where the vote was 312 for and 322 against, and Otonabee where the vote was 13 for and 14 against.

The communities voting dry were as follows: Bentley, 74 to 23; Gahabad, 26 to 25; Cayley, 40 to 10; Parkland, 159 to 102; Irma, 55 to 11; Leslieville, 35 to 13; Fleet, 11 to 6; Kinsella, 148 to 95.

While the pruning of any tree or shrub may be conducted any season of the year, the dormant season, especially in the case of trees, is generally accepted as the most desirable time. At that season of the year one is better able to determine the shape of the tree and to space the branches properly.

Wear a Poppy on Armistice Day

Old Lady (in country post-office): "I want to send these trousers by book post to my son."

Assistant: "We cannot send trousers by book post."

"But I understand anything that's open at both ends can be sent by book post!"

Master (in Latin lesson): "Did Caesar win that battle?"

Bright Lad: "Of course; Caesar wrote the book."

Mrs.: "I don't believe you intend to give me any money."

Mr.: "Then for once we think alike!"

Three-tenths of the earnings of a Belgian convict are given to him on the expiration of his term of imprisonment.

Wife: "Yes, my husband is a steady man. He never changes his job because he never works."

The occupation of home-making is one of the most important in life.

"I want justice," declared the magistrate, "but most people don't want justice at all. They want the law strained to their benefit."

Don't put your wish bone where your back-bone ought to be.

NOTICE

Your subscription to this paper is paid up to the number given on the address slip.

Prompt Renewal when due, will assist us greatly. THANK YOU.

VILLAGE OF CHAUVIN

BY-LAW NO. 24

To provide for the early closing of stores and shops within the Village of Chauvin, and for the observance of Legal Holidays and Summer half holidays.

The Council of the Village of Chauvin enacts as follows:—

(1) That it will be unlawful to keep the following classes of business open after the stated hours six-thirty 6.30 o'clock P.M., on Monday, Tuesday, Wednesday, Thursday, and Friday, Saturday the closing hour shall not be later than eleven o'clock P.M.

(2) The following classes of Business will be effected by the early closing, General Stores, Dry Goods Stores, Groceries Stores, Jewellery Stores, Drug Stores, Butcher and Meat shop and Hardware stores.

(3) This By-Law shall be in effect throughout the entire year with the exception of the six days immediately before Christmas, when the closing hour shall not be later than ten o'clock P.M., except Saturday which is otherwise provided for in this By-Law.

(4) Legal Holidays.

That all business places except Hotels, Restaurants, Ice Cream parlors and Lunch rooms shall close and observe and respect all Dominion Holidays. That is the following:—

New Years, Good Friday, Empire Day, Dominion Day, Labour Day, Thanksgiving and Christmas.

(5) That the Summer Half Holiday will take effect from May 15th to August 15th inclusive, and also the business shall close not later than 12.30 o'clock P.M. noon Wednesday. The same places of business shall be effected by this as Legal Holidays, that is all places except Hotels, Restaurants, Ice Cream parlors and Lunch rooms.

(6) Any person found guilty of a breach of this By-Law shall upon conviction before a Justice of the Peace or other Officer having jurisdiction, be subject to the penalties imposed by the By-Law of the Village of Chauvin being a By-Law for the enforcement of the Village By-Laws.

Done and Passed in Council at the Village of Chauvin this 6th day of October A.D. 1925.

Certified a true copy.

H. N. FREEMAN, Secretary-Treasurer

Unveiling The "Altar of Peace" at Vancouver

The President Harding International Good-Will Memorial located in Stanley Park, Vancouver and erected by Kiwanis International through the voluntary subscriptions of its 85,000 members in the United States and Canada, was unveiled by John H. Moss, president Kiwanis International on September 16th in the presence of a large gathering of both United States and Canadian government officials and members of Kiwanis.

The memorial was designed by Charles Maresca, a well known Italian sculptor of Vancouver. When the scheme was first decided upon, it was the intention of the American Kiwanis Clubs to raise the funds on their side of the border and to present the memorial to Canada. Canadian Kiwanis, however, insisted upon contributing towards the fund and the memorial was then erected by the joint efforts of the United States and Canadian clubs.

At the unveiling ceremony, the Dominion Government was represented by Hon. Dr. J. H. King and Dr. G. T. Harding, brother of the late president. United States Kiwanis was represented by International President John H. Moss, and International Past Presidents Victor S. Johnson and Edmund F. Arnes. The Canadian Pacific Railway was represented by Frank W. Peters, General Superintendent at Vancouver. Several of the United States delegates stayed over at Banff and Lake Louise and other points in the Canadian Pacific Rockies before proceeding to Vancouver. The memorial itself is throughout a made-in-Canada product, being designed by Canadians and made of Canadian materials and by Canadian labor.

The site of the memorial is the spot where the late

President Harding made his last public speech, when just before he died in 1923 he visited Canada. Warren G. Harding, late president of the U.S.A. was a chartered member of the Kiwanis Club at Marion, Ohio, his home town.

An extract from the speech made by the Chief Executive of the United States on that occasion, written in bronze for the memorial, and the possible text of many a murmured prayer of hope of the cosmopolitan tourist who reads it as he passes through the park, is as follows:

"What an object lesson of peace is shown today by our two countries to all the world. No grim-faced fortifications mark our frontiers, no huge battleships patrol our dividing waters, no stealthy spies lurk our tranquil border hamlets. Only a scrap of paper, recording hardly more than a simple understanding safeguards lives and properties on the Great Lakes, and only humble mileposts mark the inviolable boundary-line for thousands of miles through farm and forest.

"Our protection is in our fraternity, our armor is our faith, and the tie that binds more firmly each year, is ever-increasing acquaintance and comradeship through interchange of citizens; and the compact is not perishable parchment, but of fair and honorable dealing, which, God grant, shall continue for all time."

The memorial, which is known as "The Altar of Peace," has been received to as the only material symbol of fortification, outside of mileposts, to outline the invisible demarcation of the thousands of miles of border line separating the two countries from the Atlantic to the Pacific.

NOTICE

The Annual Memorial service
commemorating Armistice Day
will be held in the I.O.O.F. Hall
on Sunday at 3 p.m. November
8th. Captain McLeod of Edmon-
ton is expected down to take the
service. Everybody invited to
attend. Returned men and all
ex-service men are particularly re-
quested to meet at the G.W.V.A.

Wear a Poppy on Armistice Day

LOCAL HAPPENINGS

Mr. and Mrs. Armour and Thea
Armour motored to Vermilion on
Monday where Thea intends tak-
ing a course, at the School of Ag-
riculture, there.

Mr. and Mrs. Armour returned
on Tuesday evening after an en-
joyable trip, in spite of the cold.

J. C. McLeod and C. Bowen of
Wainwright attended the meeting
of the Ribstone Municipal Council
in regard to the opening of a hos-
pital at Wainwright. The Council
ed. of Vale, Irma, Gilt Edge and
Wainwright have also been inter-
viewed on this subject.

There is not one of us who at
one time or another has not been
greatly benefited by hospital at-
tention. Indeed it is not too much
to say that many who are now en-
joying good health, owe not only
their present state of well being,
but in many cases their very life
to the care they have received at
some or other hospital. We trust
therefore that the question of a
Rural Hospital will receive all
the consideration that so worthy
an object should have.

Mr. Dewar of the local bank
is taking a short vacation.

Mr. L. Borregard is the new
proprietor of the Killarney Hotel.

Mr. and Mrs. J. Scheller and
family left on Tuesday for Wash-
ington.

Mr. and Mrs. G. L. Richardson
are moving into town for the
winter, and will occupy the L.
Borregard house.

We are sorry to report that Mrs
Shantz has been very sick during
the past week, and hope that she
will soon recover.

HONEY AND ITS USES

Although honey has long been
used as a food, little is generally
known if its constituents or of
the many varied uses to which it
may be put.

Of the two forms marketed,
comb-honey and extracted honey,
the latter, the liquid honey, is the
more generally produced. Though
liquid at the time of extracting,
it is not long before movement
and change of temperature cause
extracted honey to become solid-
ly granulated. One frequently
hears granulated honey condemn-
ed as adulterated. This is entire-
ly wrong. Though solid, granu-
lated honey is in no way inferior
to the liquid form, in fact, many
prefer it granulated. It may
however, if desired, be quickly
brought back to the liquid form
by immersing the honey contain-
er in hot water. Care must be
taken however, that the tempera-
ture of the honey does not exceed
150° F., otherwise, loss in flavour
will occur.

Honey is a concentrated solu-
tion of several sugars in water,
besides which there is a small per-
centage of other food elements
These latter elements give it its
aroma and flavour. The sugars
in this solution are cane sugar
—the latter a mixture of grape
and fruit sugar;—and their ratio
to water is approximately five to
one.

As a food, honey is a valuable
energy producer, since sugar is
its principal constituent, and it is
also a wholesome, natural sweet.

When the West Beat the East

(B) Weston Shoot, Winnipeg, winners of the 1935 Grand Challenge Cup emblematic of the First Aid Championship on all Canadian Pacific Railway lines. Back row, from left to right: E. J. Bull, F. Perkins, I. Mansfield, T. R. Miller (Keefer man). Sitting, from left to right: E. L. Noble (Organizer), Wm. Reynolds (Captain), H. Shaw. 2. Dr. H. A. Beatty, Chief Surgeon and Medical officer, Canadian Pacific Railway Judge of the First Aid Championship's First. 3. McAdam N. B. team, runners-up for the Grand Challenge Cup which they won last year. They are holders of the Eastern Lines' first Aid Championship Shield and winners of the Downie Cup, representing the championship of the New Brunswick district, both of which trophies are shown in the photo. Back row, left to right: C. Lee, C. Enger, Wm. Dawson. Sitting: A. G. Shakespeare (Organizer), Wm. Bailey (Captain), G. W. Gelson.

The Canadian Pacific Railway is very proud of its First Aid endeavors and it may well be so since in the time from the establishment of the C.P.R. Council in 1909 instruction in First Aid has been given to upwards of 23,800 persons. Every year the C.P.R. First Aid teams from all points in the Dominion engage in a contest which decides the championship of the entire system. Firstly, teams in districts decide between themselves the championship of the district. Gradually the competition narrows down with elimination of teams until a champion of the East and a champion of the West is decided. This year they were respectively from McAdam N.B. and Weston Works, Winnipeg. When the final

test was held at the Place Viger Hotel, Montreal, Weston won. It was only by the narrow margin of 8 points, Weston receiving 507 points out of a possible 512 against McAdam's 499, and the result was in doubt to the very last minute of a grueling all-day fight. Weston thus become the holders of the Grand Challenge Cup which is shown in the photograph of the team above. McAdam, the runners-up, are shown with the Downie Cup representing the First Aid championship of New Brunswick district and with the Shield emblematic of the First Aid Championship of Eastern Lines, C.P.R. Inset is the photo of Dr. H. A. Beatty, Chief Surgeon and Medical Officer of the C.P.R. who judged the competition.

F. F. Norcross, a well-known Chicago lawyer, had an amazing experience recently while staying at the Banff Springs Hotel and playing on the golf course there. His approach to the ninth hole was disputed by a huge bull elk which tossed its antlers and snorted pawing the ground with evident hostility as the lawyer prepared to play his ball. Mr. Norcross was about to observe the better part of valor when the bull's attention was distracted by the appearance of a cow elk which made an effective substitute for the golfer and both animals disappeared into the neighboring bush.

Travelling in a five-passenger 1935 improved model Ford touring car from Halifax to Vancouver, J. L. S. Scrymgeour and E. Flickinger are performing a feat unique in the annals of motor travel in this country. From Franz, near Sauls, Sask., they travelled on the tracks of the Algoma Railroad to Fort William, having been granted the use of the lines by the Canadian Pacific Railway. The whole run of about 4,530 miles took nearly eight weeks, and a series of still and moving pictures were taken en route to commemorate the adventure.

POPPY DAY CAMPAIGN

The distribution of Veteran Poppies as the "Flower of Remembrance" this year on Armistice Day will assume proportions far in excess of any year since the institution of the Custom. Orders received by the G.W.V.A. which acts as distributing agent for Veteran Poppies are now in excess of the total distribution of last year by several hundred thousand. Approximately a mil-

lion poppies were worn by Canadians last Armistice Day. This year it is estimated that the total distribution will exceed a million and three quarters. No other emblem could portray the sacred sentiment of Canadians towards their war dead in the same manner as Veteran relics of the Flanders poppy.

FUMIGATION WITH TOBACCO

Tobacco has other uses than through the pipe, cigar or cigarette. As Dominion Entomologist, Arthur Gibson and his assistant, Mr. W. A. Ross, say in their bulletin on "Insects Affecting Greenhouse Plants," such insects as are injured by tobacco fumigation.

trolled by fumigation with tobacco. There are various nicotine preparations that can be purchased but these should be used strictly according to directions for there are some plants, such as the violet, that are subject to injury by tobacco fumigation.

No general recommendations can be given as to the number of times houses should be thus fumigated. This is a matter that the grower must decide for himself according to the extent and persistence of the infestation. In some houses, say Messrs Gibson and Ross, it may be necessary to fumigate only two or three times during the winter, while in other cases it may be necessary to perform the operation that number of times within a week.

NEW LIEUT. GOVERNOR

Alberta's new Lieutenant Governor is Dr. William Egbert of Calgary, whose appointment to the position was made the past week. The new governor took the oath of office on Thursday. Dr. Egbert is 52 years of age. He is a resident of Calgary of many years' standing.

CHOICES OF AGRICULTURE OPEN

The provincial schools of agriculture at Vermilion, Olds and Claresholm have opened for the 1935-36 term, with an attendance which will total upward of 350 when all students have arrived. The schools are anticipating the heaviest registration in their history. The parties of British boys who are to train here under the Hadley scheme have been distributed 21 at Claresholm, 20 at Olds and 22 at Vermilion.

If you have any local news, reports of meetings, entertainments, social functions, etc., you would be pleased to have them in print, please or hand them in to the Chronicle.

Radium Hot Springs In The Rockies

Radium Hot Springs near the Sinclair Canyon on the Banff-Windermere Highway, operated by the government in connection with which a bungalow camp has been erected by the Canadian Pacific Railway.

Sixty-four years ago, when Sir George Simpson was making the first overland tour around the world, he came across some hot springs on the western slopes of the Rocky Mountains which the local Kootenay Indians frequented on account of their curative properties. As the white settlers came in after the Wild Horse Creek Gold Rush, these came to be called The Fairmont Hot Springs, and became a well known landmark on the Government road from Lake Windermere to Cranbrook. In 1912 an English rancher, Mr. Heap Holland, purchased them and erected bathing facilities, and two years ago made extensive improvements in connection with his development of a bungalow camp. The waters on analysis proved to contain a higher percentage of radium in solution than any other Springs on the American Continent, higher even than those at

Arkansas, in addition to valuable curative deposits of magnesium and lime. The Canadian Pacific Railway had obtained right of way through his property in consideration of calling their station Radium, and these Radium Hot Springs now attract many visitors, the camp having a capacity for seventy persons. A special bath is now being constructed for the Indians, under the superintendence of Louis Arbel, the Kootenay Chief, while the white folk have a spacious swimming pool surrounded by scrupulously clean dressing rooms. There is a tennis court and horses with guides are available for riding the neighboring trails, while large numbers of automobilists visit the Springs during the summer months. Mr. Heap Holland has the intention of making this an all-year resort, as the waters have a temperature of 120° and never freeze. The only fly in the ointment is that the Government operates rival hot Springs on the Banff-Windermere

Road, which are also called Radium Hot Springs, this being the post office address. These Springs are also highly curative, and have also a neighboring bungalow camp which was erected by the Canadian Pacific Railway, and is operated very successfully by the Misses Armstrong. The Government Hot Springs were for many years known as the Sinclair Hot Springs, being named after James Sinclair, an old time pioneer, who is the first known white man to have crossed the Sinclair Pass in 1842. The virtues of these Springs were known not only to the Indians but to the animals, and it is credibly reported that in the old days bears used to bathe their paws in the waters to secure relief from rheumatism. While there is a natural confusion through the duplication of names, both resorts are rapidly increasing in popularity, chiefly owing to the increase in automobile traffic through the Rockies.

CANADIAN APPLES FOR THE OLD COUNTRY

The crop of Canadian apples this year is better than ever, and what could be a more delightful for our friends across the seas than a box of hand-picked and hand-packed Canadian apples. Your grocer can fill such an order and the Canadian National Express will transport and deliver, by quick service, to any station in Great Britain or Ireland, from Montreal or Quebec up to November 15th, and from Saint John N.B. and Halifax thereafter at the rate of \$3.00 per standard box of apples not exceeding one cubic foot eight inches in measurement or fifty pounds in weight. Rate includes refrigeration on steam-

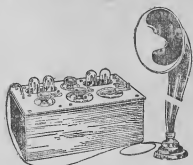

ships. Consult any Canadian National Express Agent as to further particulars.

WEAR A POPPY

Do not forget that by wearing a Poppy on Armistice Day, you are giving work to disabled soldiers, besides wearing them as an emblem of the Great War. Let us all then buy at least one Poppy for Armistice Day. The pupils of the Chauvin High School will offer Poppies for sale on Saturday.

Westinghouse

If you consider buying a radio be sure that you investigate the Westinghouse sets before buying

Only a great organization like the Westinghouse can give you the volume, tone, and selectivity that you get from a set bearing the name "Westinghouse".

These sets, at prices ranging from \$35. to \$490. form a wonderful range from which to choose your set. All these sets are capable of bringing in eastern states stations with good volume. The new Westinghouse 53's and 55's can be equipped with any desired tubes.

I have on hand Sets, Tubes, Batteries

RADIOLAS, III, IIIA and Balanced Amplifiers in Stock

WESTINGHOUSE 53 in stock and WESTINGHOUSE 55 to arrive shortly

CHAUVIN, ALBERTA

SHELTERS FOR FEEDING STEERS

(Experimental Farms Note)

With the introduction of diversified farming on the prairies, the feeding and finishing of steers has greatly increased. Shelters are an important consideration from the standpoint of economic beef production.

At Indian Head Experimental Farms a series of experiments have been conducted for the purpose of gaining data relative to the value of different kinds of shelters for the winter feeding of steers in Saskatchewan. The fence, shed with open stable, open corral with high board fence, shed with open roof, southern exposure, and straw stack.

From the experiments conducted it has been found that the question of buildings need not deter a man from entering the cattle feeding business. It has been demonstrated by the Experimental Farms that feeder cattle do relatively better outside than when housed in expensive barns. Where natural shelters are not available, a corral with a high board fence, about 7 feet high and a rough straw covered shed, will be found very beneficial as a protection from the stormy weather. These shelters are easily and cheaply constructed on the average farm and will be found quite satisfactory for all classes of live stock.

Through the agency of steers, the rough feeds and low grade grain can be profitably utilized. For further or detailed information write to your nearest Dominion Experimental Farm.

The great man doesn't think great things exclusively. He just thinks fewer small ones.

Japan may send six civil tennis players to the United States in 1926 for tourney play.

NOTES FROM NORTH EAST
(Continued from front page)

one or more and by doing so
"Remember."

We would remind the many
friends of the Manitou Lake La-
dies Aid, that the Annual Sale of
work will be held on Friday eve-
ning the 27th of November.

The weather last week end took
a very welcome change for the
better, and we hope for a contin-
uation, at least while hauling grain
is in progress.

An enjoyable evening took
place in Marsden last Wednesday
when over 100 friends of Mr. P.
M. Chapman entertained him to
a complimentary banquet, also
presenting Mr. Chapman with a
travelling bag.

"Are you an actress, auntie?"
"No, darling. Why do you
ask?"
"Because daddy said when you
came we'd have a scene."

CLASSIFIED
ADVERTISEMENTS

Here and There

"Canada has the greatest oppor-
tunity of any community on the face
of the earth," stated St. Loachry,
editor and proprietor of the London
Spectator, in the course of a recent
address before the Canadian Club.
He stressed the advantages the coun-
try enjoyed in her large wheat area,
electrical energy, wood pulp and
mineral assets.

Between 20,000 and 25,000 men are
expected to work in the forests of
the Province of Quebec during the
coming winter, according to the chief
forester of the province. It is an-
ticipated there will be a good season
in the pulp and paper products, but
that the cut of lumber will not be
so heavy owing to the low prices pre-
valent for sawn lumber.

Cordial relations between the ports
of Quebec and Liverpool were em-
phasized recently by the exchange
of cables by the respective Chief
Magistrates of the two cities. The
occasion was the Civic Week Celebra-
tion at Liverpool when the Lord
Mayor, Thomas Dowd, sent Mayor
Joseph Samson, of Quebec, greet-
ings to which the latter responded.

A record for October weddings
was established at the Windsor Sta-
tion, Montreal, early in that month,
when twenty couples invaded the
altar, and thirty couples to the
Concourse on their way to Boston,
Quebec, Ottawa and Toronto. Two
of the bridegrooms were bounced
following time-honored custom. It
used to be the fashion to subject
brides to this usage, but since the
advent of short skirts the practice
has been frowned upon.

Establishing what is really a world
record for movement of wheat, grain
poured into Fort William and Port
Arthur elevators at the rate of
nearly thirty bushels a second for
the whole of the 24 hours of October
5, from Canadian Pacific Railway
cars. In all, 1,704 cars were un-
loaded during the day and each car
carries an average load of 1,500
bushels, representing a total of 2-
556,000 bushels.

Driving into stationary trains on
level crossings seems to be a favorite
sport on the part of a number of
motorists judging by reports com-
ing in recently from different sec-
tions. The latest is from Galt,
where an automobile, in broad day-
light, ran into a freight train con-
sisting of 18 loaded and 15 empty
cars standing in plain view on a
crossing. Fortunately no one was
hurt, but the instance is another of
gross carelessness on the part of
motorists.

The Grand Challenge Cup, em-
blematic of the First Aid champion-
ship of the entire system of the
Canadian Pacific Railway, was won
by the Weston Shops team, of Win-
nipeg, champions of the West,
against McAdam, N.B. team, cham-
pions of the East and last year's
winners, after a searching test of
the two teams conducted at the Place
Viger Hotel, Montreal, recently. The
margin between the two teams was
so narrow as to be in doubt to the
last moment. Weston took 507
points out of a possible 672 and
McAdam had 499.

Tourist traffic development
throughout Canada has reached such
proportions as to equal the value of
a fairly good wheat crop, and such
development has only just begun, is
the opinion of Colonel Phil. Moore,
of Yoho Valley, B.C., interviewed re-
cently. He thought that an estimate
of three hundred million dollars
spent by tourists annually in Canada
was not too high. Growth of interest
in the Canadian Rockies was very
noticeable and although the majority
of tourists there were Americans,
yet Canadians, too, were beginning
to discover them, said the Colonel.

Wear a Poppy on Armistice Day

His Master's Voice records
while they last at 50c each. These
are double sided records regular
75c. We have about 100 left. Buy
now they will not last long
McKechnie's Drug and Sta-
tionery Store.
